- ◆ Easy access to ISPTSA website
- ◆ Print a pdf of the directory from web access
- ◆ Print a pdf of the grade level list from web access

Did you know the International School PTSA offers an online directory of the school for free?

DIRECTORYSPOT

The International School PTSA is offering the online directory through the Directoryspot app to every family at International School.

This directory is published by the ISPTSA with information supplied by Bellevue School District.

By October, new parents to the school will receive an email inviting you to download Directoryspot app from the Google or iPhone store, and log-in. If you have not received the email, please check your junkmail. The email will have @directoryspot.net as the sender.

Once you have the app and the log-in, check out your family profile. If you would like a grade list for your student, this can be printed from your web log-in to Directoryspot.

This is a secure directory only offered to families of students and teachers/staff of IS. No information is sold or provided to persons outside of the IS community.
